Educational Lectures - these are 30 minutes presentations covering topics which fit within selected categories. Although the scope of a presentation may vary from overview, information, analysis, or leadership, the time constraint provides a natural scope limit. The Associations will be seeking Continuing Education Credits from the relevant International and National organizations.

Poster Showcase – these are proposals in which the visual format is the primary method of conveying information. This category can be aimed at any level of coverage, from overview to leadership and may encompass any topic relevant to the HIM and Radiography professions.
**Proposed Topics**

- Healthcare financing
- Health data analytics
- Healthcare economics
- Healthcare law
  - Confidentiality
  - Privacy
  - Healthcare documentation
  - Health Information Security
- Departmental
  - Data/information Workflow
  - Image flow
- Current Trends in Health Information Management and Health Informatics
- Data Quality and Data Management
- Other areas relevant to the conference theme

If you just simply want additional information we are here to assist you.
